Subject Index, Volume 9, 1992

Adipose
  Binding of growth hormone to 13
Adrenal
  Hypothalamic-pituitary-axis in dairy cows 181
Age
  Effect of intake and, on GH kinetics 199
Androgens
  Effects on GRH-induced GH release 209
Angiotensin II
  Hormonal regulation of thirst 1
Arginine Vasopressin
  Hormonal regulation of thirst 1
Atrial Natriuretic Hormone
  Hormonal regulation of thirst 1
Avian
  Osmotic and hormonal regulation of thirst 1
  Ovarian regression and molt on plasma thymosin β4 297
  Regulation of plasma cholecalciferol levels 37
Bovine
  Age and intake on GH kinetics in 199
  Androgen effects on GRH-induced GH release 209
  Body condition and estradiol on LH 305
  Effects of thyroid, growth promotants on growth in 173
  Glucose and insulin in calves fed high and low fat diets 233
  GnRH in stalk-median eminence, relation to body fat 71
  Hormones and metabolites with fasting 95
  Immunization against GRH, effect on GH 125
  Nutritional anestrous and subfunctional corpora lutea 187
  Opioids and adrenal function in 181
  Osmotic and hormonal regulation of thirst 1
  Prostaglandin in follicle development 49
  Prostaglandin in luteal lifespan 49
  Regulation of FSH by inhibin 243
  Thyroid and somatotropic axis in 261
Caprine
  Endotoxin-stimulated release of cortisol 273
Chondrodysplasia
  IGF-I levels and gene expression in sheep with 25
Corpora Lutea
  Nutritional anestrous and subfunctional 187
  Prostaglandin in luteal lifespan 49
Corticotropin Releasing Hormone
  Effects on cortisol, GH and prolactin 141
Cortisol
  Effect of fasting in bulls and steers 95
  Effect of *icv* CRF and *iv* morphine on 141
  Endotoxin-stimulated release of 273
  Opioids and adrenal function in dairy cows 181
Dihydrocholecalciferol
  Plasma levels and ovulation-dependent factors 37
  Plasma levels and shell formation with hypocalcemia 37
Endotoxin
  Regulation of cortisol release by 273

Estradiol
Effect of, and body condition on LH 305
Aromatase inhibitor and release of 313
Estrous Cycle
Aromatase inhibitor on estradiol release and the 313
Follicle
Morphometry and steroid function of 219
Prostaglandin in development of 49
Follicle Stimulating Hormone
Regulation by inhibin in the male 243
Free Fatty Acids
Effect of fasting in bulls and steers 95
Glucose
Metabolism in calves fed low and high fat diets 233
Gonadotropin Releasing Hormone (see LHRH)
Growth
Effect of thyroid and growth promotants on173
Growth Hormone
Age and intake on kinetics of 199
Effects of fasting on 95
Effects of GRH and TRH on 115
Effects of immunization against GRH on 125
Effects of *icv* CRF and morphine on 141
Effects of pGH on pGH and bGH binding to adipose 13
Effects of propylthiouracil on 261
N-methyl aspartate stimulates secretion of 225
Growth Hormone Releasing Hormone
Effects of immunization against 125
Regulation of GH in sheep 115
Inhibin
Radioimmunoassay pitfalls 57
Regulation of FSH in the male by 243
Insulin
In ruminating and veal calves fed high or low fat diets 233
Insulin-Like Growth Factor
Effect of, on endogenous IGF-I 151
Effect on reproductive performance 151
Effects of fasting in bulls on 95
Effect of hypothyroidism on 261
Immunization of GRH, effects on 125
Levels and gene expression in chondrodysplasia 25
Sarcocystis infection on plasma 285
Insulin-Like Growth Factor Binding Proteins
Effects of IGF on 151
Effects of Sarcocystis infection on 285
Lactation
Mammary-derived growth factor 89
Luteinizing Hormone
Association of, with LHRH 77
Body condition and estradiol on 305
Effect of N-methyl aspartate on 105
N-methyl aspartate inhibits release of 225
Luteinizing Hormone Releasing Hormone
In median eminence, relation to body fat 71
Association with luteinizing hormone 71

Mammary Gland
Growth factor derived from, in lactation and involution 89
Melatonin
Nocturnal rise in gilts 161
N-Methyl Aspartate
Effects on LH 105
Stimulation of GH and prolactin, inhibition of LH 225
Nutrition
Anestrous in, and subfunctional corpora lutea 187
Age and intake on GH kinetics 199
Insulin and glucose in calves fed low and high fat diets 233
Osmoreceptors
Osmotic regulation of thirst 1
Ovary
Morphometry and steroidogenic function in 219
Nutritional anestrous and subfunctional corpora lutea 187
Prostaglandin in follicle development, luteal lifespan 49
Ovine
CRF and morphine on cortisol, GH and prolactin 141
Aromatase inhibitor on estrogen release and estrous cycle 313
IGF-I levels and gene expression in chondrodysplasia 25
Morphometry and steroidogenic function in follicles 219
Osmotic and hormonal regulation of thirst in 1
Radioimmunoassay of inhibin in 57
Regulation of FSH by inhibin in the male 243
Ovulation
Inadequate nutrition and 187
Morphometry and steroidogenic function in follicles 219
Parasite
Effect of Sarcocystis on GH, IGF-I, IGF-BP 285
Pituitary
Androgen effects on GH release from cultured cells 209
Porcine
Association of LH and LHRH in 77
Effect of N-methyl aspartate on LH in 105
Growth hormone binding to adipose membranes in 13
N-methyl aspartate stimulates GH, prolactin, not LH 225
Nocturnal rise of melatonin in 161
Osmotic and hormonal regulation of thirst 1
Sarcocystis effects on GH, IGF, IGF-binding protein 285
Prolactin
Effects of *icv* CRF and *iv* morphine on 141
Stimulation by N-methyl aspartate 225
Prostaglandin
In follicle development and luteal lifespan 49
Mediation of endotoxin effects on cortisol release 273
Rat
Effect of IGF-I on reproduction, IGF-I, IGF-BP 151
Relaxin
Hormonal regulation of thirst 1
Somatotropin (see Growth Hormone)
Thirst
Osmotic and hormonal regulation of 1
Thymosin
Effect of ovarian regression and molt on plasma 297

Thyroid
Effect of, and growth promotants on growth performance 173
Effect of hypothyroidism on GH, IGF-I, TSH 261
Thyrotropin
Effect of hypothyroidism on 261
Thyrotropin Releasing Hormone
Effect on GH release in sheep 141
